Valid Until: Oct 14 2017 0700 AM CDT

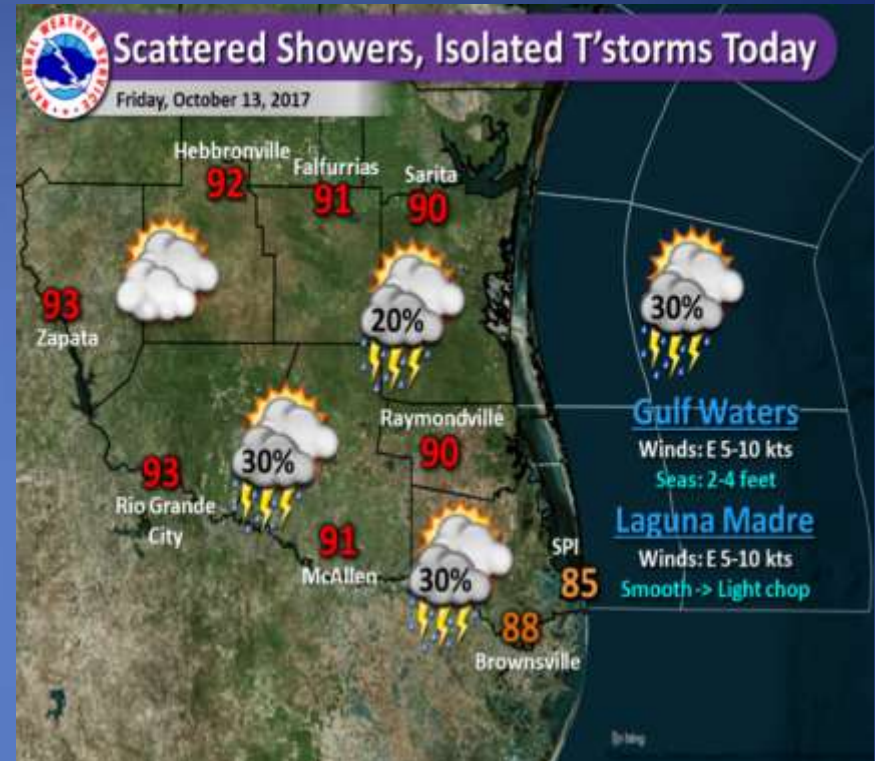

Tornado & Severe Thunderstorm Outlook Friday, October 13, 2017

Hazardous Weather

Partly to mostly cloudy with areas of fog. Lows in the 70s. A slight chance of showers over the coastal waters. Coastal Flood Advisory through tonight south of Port Aransas to Baffin Bay.

Scattered rain showers and isolated thunderstorms will be expected today across much of Deep South Texas. Otherwise, anticipate a mix of sun and clouds with high temperatures this afternoon in the upper 80s to lower 90s across the region. Mariners should expect modest easterly winds around 5 to 10 knots with the bay increasing to a light chop and gulf seas of 2 to 4 feet out to 60 nautical miles.

Hazardous Weather

Very warm and mostly dry weather is expected under partly to mostly cloudy skies but sufficient moisture will flow into the region for slight chances of thunderstorms mainly for areas east of El Paso. Near record high temperatures are expected.
